

Dear Hiring Manager,

I am writing to express my interest in the position of Software Developer - Consulting Internship Summer 2024 at EisnerAmper. With my strong background in software development, project management, and technical writing, along with my excellent communication skills, I believe I would be a valuable addition to your team.

In my current role as a Senior Machine Learning Engineer at Tiger Analytics, I have spearheaded the development of interactive dashboards and comprehensive documentation for MSP Value Optimization in the Petcare sector. I have also developed an end-to-end MLOps platform, attracting four significant clients. This experience has given me a deep understanding of software development cycles, project management, and the importance of effective communication in technical environments.

I have a Masters of Science degree in Computer Science from Arizona State University, where I have gained knowledge and experience in Agile software development cycles, technical writing, and requirements gathering. My coursework in Social Media Mining, Knowledge Representation and Reasoning Algorithms, and Statistical Machine Learning has provided me with a strong foundation in understanding and designing business systems' requirements.

In addition to my academic achievements, I have practical experience with JIRA, Confluence, and other IT project management programs. I have also worked in Agile methodologies, collaborating with project managers to define project vision and track project progress. My experience in software testing, including Quality Assurance and Quality Control, has given me a keen eye for detail and the ability to ensure high-quality deliverables.

EisnerAmper's mission to help clients meet pressing issues and position them for success aligns perfectly with my own values of responsiveness, a long-range perspective, and client success. I believe that my skills and experience make me an ideal candidate for this internship.

Thank you for considering my application. I have attached my resume for your review, and I look forward to the opportunity to discuss how my qualifications align with your internship requirements.

Sincerely,
Saurabh Bhausahab Zinjad
